

# Presentations

Most people know how to create a presentation; unfortunately, most people will probably make a pretty poor job of it!

There are common mistakes that people make over and over again. Things such as

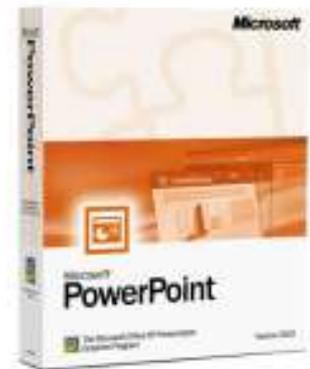

- using too much text on slides
- overuse of animations
- poor colour choices

## TASK

Undertake some research to find out what makes a poor presentation.

Create your own presentation with slides illustrating the mistakes that people make i.e. how not to do something.

Then create a series of slides to show them how to make an effective presentation.
